PROFESSIONAL SUMMARY

Full Stack Developer and B.Tech Computer Science student with hands-on experience building responsive web applications and full-stack platforms using React.js, Next.js, JavaScript, TypeScript, Node.js, Express.js, and MongoDB. Independently developed and deployed a photography club platform and contributed to hackathon projects involving AI/ML dashboards and Web3 concepts. Comfortable working with REST APIs, Git/GitHub, Postman, modern UI tools, and collaborative development workflows.

SELECTED PROJECTS

Project Pixel / Pixela | Independent Full Stack Developer
Next.js, React, TypeScript, Node.js, Express.js, MongoDB, REST APIs

- Independently designed, developed, and deployed a photography club platform covering frontend, backend integration, authentication, profiles, photo uploads, galleries, and admin workflows.
- Built responsive, reusable UI and backend services, integrated REST APIs and MongoDB, and supported media storage and AI-enabled features.
